Subject: RE: Comment submitted for Planning application
Expires: 14 November 2021 00:00

My comments on this application were submitted - but for some reason, do not appear on this acknowledgement.
So repeated herewith: -

Having discovered the application by chance, as no notification has been received - I write to strongly object to the erection of a 30m high telecoms. column with its associated cabinets, within less than 40m from my property in Hillrise & would certainly tower over the whole area.

Why anyone would wish to put such an eyesore on the main road entrance to a picturesque, historic village, is beyond belief.

Whilst I appreciate we have to have efficient communications & such columns are necessary to achieve that, the siting of this type of equipment should be done with the utmost consideration & care - hence my objection.

I understand the notification of this project has only been sent to two nearby properties, despite the fact that many more will be directly affected, is also a cause for concern.

An option would perhaps be a corner of the village hall car park which is only meters away & still on a similar 'above sea-level' height, to achieve the required signal access/delivery.
