Comments: While I am all for new technology and am an early adopter in many things tech, I am aghast at the proposed positioning of this mast.

I certainly do not object to a mast and believe it would be of benefit many people. But who thought it was a good idea to put it there?

It has laziness written all over it. It is unsympathetic to the surroundings and inconsiderate to the home owners only metres away.

There are several if not many alternative locations, not least Alton Towers' land, which is higher. Or there is the village hall grounds.

Rather than the installers trying to do what is easier for them, why not consider what is best for the village? Presumably, this is a commercial enterprise, not something being done from the kindness of a company's heart, therefore, I believe we should have say on its positioning.
