Submission: Objection

Comments: I cannot understand why there is any need for this mast to be in such a central place within such a picturesque village.

The application for such an unsightly mast holds next to no purpose for the village. 5G? No need for it at all - many villagers already have internet connections of their own. This only stands to benefit those passing through briefly on their way to Alton Towers.

The mast will stand higher than the majority of local buildings. If a local property wanted to build something this high it would most certainly be opposed.

Whilst I do not live within the village, my children attend school there. I simply cannot see why this is needed.
