Submission: Support

Comments: I support this application and I am aware of the time and consideration put in prior to this submission. The provision of this agricultural workers dwelling is required to ensure the longevity of the family farming business to allow current farm workers to live on site and be available 24/7 for the welfare of animals, no matter what the weather, travel considerations, etc and also to ensure the security of the farm and the business moving forward for generations to come. Where the dwelling is located has been selected to ensure the above and is in keeping with local styles and traditions and certainly will not be a blot on the landscape. Approval of this application would no doubt see continued improvements for the farm and surrounding land, thus being beneficial to the business, the family and the local area.
