Submission: Neither

Comments: To whom it may concern,

We do not object to the proposed extension and alterations, however, with regards to the new siting of the upstairs window which currently overlooks our property (10 Curzon Rise), we are aware that this room is currently a store room. With the alterations this room becomes a useable bedroom and as such, a new larger window will have full view of the rear of our property which will impact on our privacy. We would ask that the existing window is bricked up and no new window is constructed, alternatively, the proposed new window is fitted with opaque glass.

The road outside 12 Curzon Rise is narrow and as such planning need to be aware that the extensive alterations and proposed extension will have a significant impact on Curzon Rise, access, parking and disruption.

Kind regards,

Robert and Lynne Shaw
