Roebuck, Leek

This is a prominent site with open views from Haywood Street through to The Roebuck and a roofline of Trinity Church and a jumble of roofs and chimneys. Any equipment needs to be discrete and muted on colour. They are proposing:

- 1 pole-mounted camera (with yellow metal guard). No details of equipment cabinet. No details of height or camera details
- 4 reflective metal bollards. No details of why these bollards are necessary. Why can't the 'yellow line' start at the end of the wall removing the need for the bollards?
- 5 wall-mounted signs (600 x 800) (no details of what they are to be fixed to – elevations required), 1 pole-mounted sign at the car park entrance (600 x 800 on 2.8m pole) and 1 sign on a double pole near the camera pole (1200 x 800 sign on 2.9m pole??). No colour given

There is no doubt that the size and amount of signage proposed is excessive given this sensitive location and the small size of the car park. The proposed infrastructure needs to be drastically reduced, more sensitively designed, and we need photo-montages showing the equipment in its location.

We need to pick up the shelters erected without planning permission – unless they are a temporary Covid provision.

Not acceptable at present.
