

DET/2021/0019

Willowshaw Farm, Congleton

I am not intending to comment on this application other to point out that the building is a relatively modern agricultural shed. The structural statement only briefly mentions the portal frame building (commenting on the traditional buildings which are not part of this application) and provides little information to demonstrate how the building can be converted. With only the skeleton frame retained (which needs strengthening) the rest will be new build.
