Date: 14 June 2021 14:44:25

Hello Ailsa,

Just a few points -

1. We have no record of complaint against the development to date.
2. There is no acoustic data contained in the application.
3. Have planning enforcement received any complaint of noise, if they have then please make us aware as soon as possible?
4. It is probably not realistic to place any timing conditions on the permission.
5. Environmental Health would not object but it maybe worthy to place the following condition on any permission granted, it requires that operational noise from the machine does not exceed background noise –

1. Plant and Machinery Noise -

The machinery, plant or equipment including installed or operated in connection with the carrying out of this permission shall be so enclosed and/or attenuated that the noise generated by the operation of the machinery shall not increase the background noise levels during day time expressed as LA90 [1hour] (day time 07:00-23:00 hours) and/or (b) LA90 [15 mins] during night time (night time 23:00-07:00 hours) at any adjoining noise sensitive locations or premises in separate occupation above that prevailing when the machinery is not operating. Noise measurements for the purpose of this condition shall be pursuant to BS 4142:2014.

Reason:- *To safeguard the amenity of local residents and that of the surrounding area from noise disturbance.*

Thank You,

Denis

Subject: Planning Application SMD/2021/0197

Hi,

I'm just wanting to check if EH want to comment on this application before I put it through for signing?

It's a retrospective application for a modular self-serve launderette facility.

It goes out of time today, so I just wanted to check whether to wait for some comments first.

Thanks

Ailsa
