Submission: Objection

Comments: I am objecting to the planning proposal for property SMD/2021/0346. My reasons for this are as follows:

The application is for two storey/single storey rear extension, this will impact on my garden and patio area significantly reducing daylight and sunlight.

I also believe that this will devalue my property as the extension protrudes cancelling out my open view, which means I will be looking at a brick wall from my seating area if this is passed.

I bought my property two years ago, the main selling point was being able to step out of my property onto a patio area which is currently bathed in daylight.
