Submission: Objection

Comments: I have lived in row all for over 30 years, living in the beautiful landscape which is classed as an area of outstanding beauty. The land in Rownall has been farmed for hundreds of years, the latter years have seen hedges & trees removed to increase the fields in order to successfully grow a variety of crops. This land supports a whole range of wildlife. If the proposed application SMD/2021/0352 is granted, this will greatly impact on a visual level & noise level from the battery converters it will destroy the natural beauty of our surrounding countryside. I am worried to see at least two more applications for batteries & converters in this area. SMD/2021/0413. SMD/2021/0382. This is a worrying trend changing the usage from much needed farmland into ugly industrial area.
