Hi Arne,

A few questions/comments on SMD/2021/0384 Solar Farm, Totmonslow:
The red line does not connect to the highway. There is a description in the screening report but 'existing farm access for Totmonslow' is not precise, particularly as Totmonslow farm is not defined on the aerial photos. Access route needs to be defined on a plan of reasonable scale to avoid confusion and assumption.

Once access is demonstrated, we'd want to know.....

Duration of construction works;

Intensity of construction works – vehicles per day....;

Types and sizes of delivery vehicles;

Numbers of delivery vehicles;

Approach routes for deliveries;

Consideration of the effect of large delivery vehicles on relatively narrow lanes and proposals to safeguard or repair damage to carriageway, edge and verge particularly at the junction with the highway; Can large HGVs and specialist haulage vehicles negotiate the access route? Auto tracking will be required of the largest vehicles.

Proposals for access – widening, hard surfacing, visibility splay;

Details of visits required for ongoing operations and maintenance;

I note public rights of way cross the site. SCC Rights of Way should be consulted for their view.

Trust this is of use,

Regards,

Dave
