To whom it may concern

My family and I have a great interest in nature and growing all sorts of plants.

Sarah's plot and polytunnel enables us to have both.

My 3 children aged 8,9 & 10 have seen baby goats be born and also baby chicks, we love growing our own fruit & veg in the polytunnel and we have even planted trees on the plots that were given to Sarah by the forest trust, it was great fun.

This is a place that we can go to to have fresh air, meet and socialise with like minded people who are also passionate about nature & gardening, we have plant and seed swapping and also give each other tips.

It really has a community spirit and I for one wish that we could get more people involved as it's always a lovely place to go and it's also nice to have a coffee and sit and look at the magnificent views

Kind regards

Paula Jones
