Subject: SMD/2021/0337 Application Plan Objection

Categories:

Good morning, I am in receipt of your letter dated 7/7/21 which I received yesterday.

I am formally objecting to the plan to heighten Tean Surgery for the following reasons:-

- 1) there is ample parking for patients on Old Road carpark, and the surgery has an ample largely unused carpark within its own grounds. The ground floor could be easily expanded without effecting nearby homeowners.
- 2) Extending the height of a building so close to houses would destroy privacy in everyones gardens as the surgery is extremely close to nearby houses and further darken our personal space and negatively effect privacy.

This would also effect my house price negatively.

- 3) It is a conservation area and increased facilities for staff mean increased traffic flow etc.

- 4) Huge conifers are between my garden and Tean Surgery carpark, which they refuse to cut on my side/make excuses not too, and overshadow my garden as it is. Whilst these would shield from an extension upwards to some degree, the conifers ordinarily are too high in the first place.

Regards
