Subject: application no. SMD/2021/0454

I refer to your letter dated 13th July regarding the above application for planning and greatly oppose this application on the following grounds

- a. Clewloes Bank is already a heavily used road into a small village area - supposed to be 30mph but most users exceed this limit.
- b. The site referred to is just on the brow of the hill and entry and exit would be extremely dangerous
- c. Many drivers use this road as a cut through, people from Endon and Brown Edge going to JCB at Cheadle or Uttoxeter, workers going east to join the A50 and parents taking and collecting their children from Endon schools

I have lived in the area now for 5 years and have seen a huge increase in the amount of traffic on Clewloes Bank and more property would certainly increase the amount of cars using the road.

I have a dog and whilst out walking I am regularly shocked at the speed drivers use on this road. I stand on the pavement and have to wait anxiously until I am sure that no-one is racing up or down.

Most of the property in the village has at least two cars and to add to this number would make matters more dangerous.

Yours sincerely
Pauline Shipley
