

Alan Gough – additional public comments
SMD/2021/0438

Thank you for your response to my email. However after checking the revised drawing against the original drawing the width of the extension has been reduced from 4500 mm to 3000 mm. this will still exceed the building line. It will also still cause a hazard for drivers emerging from Bala Grove into Windermere Way. As we have now become a rat run for traffic between Froghall Road and Oakamore Road I think it will be an accident waiting to happen. If the extension is needed it should be on the rear of the building which would not interfere with any other person in either Windermere Way or Bala Grove.

Thank you
Yours Sincerely
Alan Gough
