Submission: Objection

Comments: The proposed plan of the garage is too close to the shared fence and it could cut out some of the light to my property.

The construction and future maintenance of the garage would require gaining access to our side of the shared fence due to the close proximity to the fence. This would be unacceptable and encroach on our property and privacy.

There is no provision for the future maintenance of the existing shared fence panels behind the garage.

We are retired and do not want anything on our property disturbed in any way.
