---

Applicant Mr Mark Hall, Knypersley Mill Farm, Judgefield Lane, Brown Edge, ST68UG.

Ref : Indoor storage.

I note that this is to be used by member of the public who use the campsite facilities therefore the various people who are living on the campsite permanently can store any other caravans in the farmyard?

Highways

No personal injuries possible not, but this is a dangerous bend. I have lived here for over twenty years and the volume of traffic has more than doubled. There has been numerous accidents during this time and although no personal injuries have been reported that we know of, I feel that an accident is waiting to happen.

Parking and turning has been operational for several years yes, but this proposal intensifies the use of this dangerous bend. Towing a caravan would need excellent driving skills as the caravans stick out and block the road.

We live in a green belt area, walkers and cyclists come here to enjoy the countryside and road is already busy.

The farm has shared access and it seems very unfair for the owners of the mill. Also it is a working farm, how will this operate?

My husband has reported to the canal and riverside trust a crack has appeared in the dam which has become larger over the last few weeks. We have seen the surveyors here checking out this problem which I assume is a result for the extra traffic that comes over the bridge. We are awaiting the outcome.

I await your comments.

Yours faithfully

P E Williams (Mrs)
