Hi...this road they wish to use is
Unsuitable for site traffic.
The road at the bottom of the bank gets cut up with pot holes as previously used.
There is a public footpath at the top it is dangerous for workers.as I have witnessed several
occasions.i am not quick enough to jump to one side.not enough room either..
The traffic goes to fast.
Everyone I know in uttoxeter road is concerned about them using this road.
There is the road from uttoxeter road they have been using with the traffic lights..why not use
that.
It is going to be very difficult to use this road they wish to use..
Safety reasons..its an accident waiting to happen.
We all very concerned about this.as they used this before. It was horrendous.for the above
reasons
Please contact myself
Kind regards
Kay brown
