Submission: Objection

Comments: This planning will be detrimental to the safety of Werrington village. The situ of the said planning is on a brow of a hill which when customers are parking will hinder the view of oncoming traffic both ways. As there is no parking cars will block the bus stop forcing buses to stop on the road & people having to walk onto the road to get onto the bus. There is also going to be issues for children walking to & from school as the road is narrow & this could cause a very serious accident, even death. There is not enough people in the village to warrant another supermarket as there is already 2 that stay open late. It is also difficult now to see the main road when coming out of Johnstone Ave & Oakmount Rd due to being on a brow, so having more car;s parking will again be a contributor to accidents which again could be very serious or even fatal.
