Submission: Objection

Comments: With regard to the above planning application, I have the following thoughts/concerns: -

That wooden fabricated structures of this nature quickly fall into disrepair. How will this shed be maintained and kept in good order?

How can we prevent this structure from being extended further and impacting the environment? Or prevent additional buildings, temporary storage or other structures being erected.

The entrance to the field has quickly turned into a bit of dumping ground, pallets, flag stones, old trailers, rubble. I walk this path, next to the field daily and I'm disappointed how this has deteriorated in the past 18 months.
