Submission: Objection

Comments: Access at the bottom of Woodlands Lane is an utterly disgusting notion. There have been four fatalities within 50 meters to this proposed entrance in the last four years.

Half of fatalities here have been children.

Now it is being considered to have an access route for over 200 houses. There are HGV's using this narrow road already. It is a serious danger to life to use this road for 200 houses.

If this decision goes ahead there will be more deaths, and countless more accidents.

There are already weekly incidents along this road within 100 meters.

It is a danger to life to accept that this would be a suitable access point.

People are in danger of death and serious injury should this ludicrous planning application is taken seriously.
