Submission: Objection

Comments: In addition to our formal objection (email dated 16.08.21)

What assurance do we have that the proposed 'green space' included in this planning application will not be subject to further planning applications for more housing?

What assurance do we have that the existing oak trees and their vital root system will not be impacted by the digging of foundations for the proposed dwellings?

What assurance do we have that the future of the existing oak trees is protected and therefore new residents of the proposed new properties will not be able to request that the existing oak trees are removed?

Why isn't the proposed movement of the existing boundary line concluded before this planning application is submitted?
