Tenford Lane

Tea

16 August 2021

I would like to see an independent survey carried out on the said pond or small lake which lies just over the boundary fence of this field.

I have lived in Tea over 40 years and as I can remember there has always been (Danger Keep Out) signs along the boundary fence.

We are hearing constantly from Police how dangerous Quarry ponds & lakes can be.

Building homes so close to this old Quarry would put children's lives at risk.ie playing or swimming in this area, is very dangerous.

Before you let this field go under development, take a look before you (Vote).

It is your duty as planners to do the right thing

Children's lives come before houses.

Regards

M/B Stubbs
