To Whom

Further to the full planning permission application submitted for Vale View, Hazelcross Road, Kingsley, ST10 2AX. Ref: PP- 10117309.

This planning statement is to accompany the planning drawings listed in this application.

Summery/Proposal:

The proposal consists of.

A Two-Storey Front & Side Extension.

The new proposed two-storey front & side extension will create a new playroom, larger kitchen/dining room on the ground floor and a new master bedroom suite & 4th bedroom on the first floor for the property.

The additional internal floor area created will be 51sqm on the ground floor and 51sqm on the first floor.

102sqm in total.

VALE-VIEW-IDS-507-DR-A-05-10-006B– Proposed Floor & Roof Plans

Site Planning History:

The site has no planning applications as far as we are aware.

Site & Surrounding Area:

The site is on Hazelcross Road, Kingsley, Staffordshire, ST10 2AX.

The area is in flood risk area 1 see attached Environmental Agency Report attached.

Scale:

Please refer to supporting documents and drawings showing proposed floor plans & elevations.

We believe the proposed scheme will have no deleterious effect on the building or its surroundings.

Landscaping:

The proposals make no alterations to the soft landscaped areas at the property and will remain untouched.

Minor alterations will be made to the hard landscaping at the front of the property with the removal of the old brickwork framed garage and driveway.

the intension is to replace most of the current hard landscaping to the front of the property with permeable block paved driveway with a large soft landscape area front and centre.

All boundaries remain as previously agreed.

Design:

The residential property is a typical two storey detached dwelling construction built in or around the 1950's and is set back from the road in a quiet road in the village.

The new front & side extension to the property is to be a modern contemporary feel with rendered wall all round and traditional windows to the front of the property and a large feature aluminium framed window at the rear to take advantage of the unobscured countryside views.

The additional ground floor space of 51sqm will provide a larger family kitchen/dining/seating room, a larger utility room and a children's playroom. The additional first floor space of 51sqm will provide a new master bedroom suite containing a dressing room and en-suite and reconfigure the 3rd bedroom and add a 4th bedroom, a small balcony off the master bedroom over the existing loggia area is proposed to take advantage of the uninterrupted countryside views to the rear of the property.

This will provide a complete family home for the owners who intend to settle here for the considerable future to raise their young and growing family.

The existing property is not within a Conservation Area or any area that has been designated by the borough council as requiring specialist design considerations. Due to the location & size of the proposed extension will not encroach on the facilities and or views currently enjoyed by the neighbouring properties to the east & west.

Social Context:

The social context for this proposal is that this is a small area on the edge of Kingsley surrounded by countryside there is no danger of causing loss of residential amenities to those living nearby. The property itself sits on a quiet street of mainly detached houses on the edge of the village.

Flood Risk Assessment:

As this site is within a flood risk 1 area on the Environment Agency's map this is not required.

Storm Water:

No alterations required and will remain as is.

Foul Water:

No alterations required and will remain as is.

Materials:

All proposed materials are shown on the drawings and highlighted below.

Roof Tiles: To match existing roof tiles - Smooth Grey.

Walls: New extension to be Rendered – Champagne colour TBC.

Front Windows & Doors: White UPVC to match existing.

Rear Feature Windows: Aluminium Framed Glazing – Anthracite colour TBC.

Guttering & Downpipes to be: UPVC Black finish to match existing.

Access:

The proposals make no alterations to or loss of accessibility.

Regards

Simon Ward

Director

Flood map for planning

Your selected location is in flood zone 1, an area with a low probability of flooding.

This means:

- you don't need to do a flood risk assessment if your development is smaller than 1 hectare and not affected by other sources of flooding
- you may need to do a flood risk assessment if your development is larger than 1 hectare or affected by other sources of flooding or in an area with critical drainage problems

Notes

The flood map for planning shows river and sea flooding data only. It doesn't include other sources of flooding. It is for use in development planning and flood risk assessments.

This information relates to the selected location and is not specific to any property within it. The map is updated regularly and is correct at the time of printing.

Flood risk data is covered by the Open Government Licence which sets out the terms and conditions for using government data. <https://www.nationalarchives.gov.uk/doc/open-government-licence/version/3/>

Use of the address and mapping data is subject to Ordnance Survey public viewing terms under Crown copyright and database rights 2021 OS 100024198. <https://flood-map-for-planning.service.gov.uk/os-terms>
