We have concerns over the amount of light that will be blocked by the new construction.

There is also a worry over the parking situation in the immediate area which is already problematic.

Why has the parking been arranged at the rear and not off the main road (A520)?.

It would make more sense to have the parking at the rear and parking access off Cornhill street.

This would benefit the residents on Duke street who are having their parking removed and help us with our guest house with the privacy and light issues that this project would bring.

Please take these points into consideration.

Regards

Paul Burton
