Subject: Re planning application: SMD/2021/0562
Date: 02 September 2021 21:38:00

Dear Sirs

Regarding the above application we are not happy with the two story extension proposed by our new neighbors at no.32 as this will result in a severe loss of light in both our hallway and our kitchen which barely gets enough light as it is. We therefore ask you to reject this aspect of the application.

We have no problems with any alterations to the right side of their building, and it would be Ok to extend the existing single story extension at the back outwards only, provided of course they sort out the fencing that would have to be removed. We also have no problems with them having a new front bay window,

Kindest Regards

Darren & Jayne Swindells
