Good Morning,

Thank you for consulting us on the RM application SMD/2021/0536 (Land at Barnfields Industrial Estate).

Staffordshire County Council Flood Risk Management position

We have reviewed the submitted information and note that landscaping and layout should be designed around the drainage system required for the discharge of Conditions 31 and 32 from SMD/2014/0750.

As we have not been consulted on these conditions yet, we cannot present any comments on the proposed appearance, landscaping, layout, and scale of this phase of the development at this stage.

Kind Regards

Roberta

Please note my working days are Monday to Wednesday.
