Submission: Objection

Comments: My objection

I feel that the proposed dwelling will impact on my view I will effectively be looking at a brick wall, I also feel that it will impact more on the traffic situation which is already problematic along Junction Road.

our concern regards the already dire parking situation on this road, although the dwelling does provide a parking space it will impact the situation none the less. eg: People from other roads already parking on Junction road, funeral traffic, who don't use the provided allocated parking area and park on Junction road, this road is already a disaster waiting to happen with the speeds people go.

Visually for the houses around the dwelling it will impact on light for some other residents, and also it will impact on ourselves as we try to move on and off our driveway, again its already tricky enough.

just because someone feels they have space at the bottom of a garden to place a dwelling does not mean this should be granted, i feel this adds strain to an already overcrowded environment.

How will this impact the already stretched drainage system? Yet more green space decimated.
