

PLANTING SCHEDULE AND SPECIFICATION					
Common Plant Name	Botanic Name	Plant No's	Plant or pot sizes/girth	Planting Distances	Notes
TREES					
Mountain Ash	<i>Sorbus aucuparia</i> "Sheerwater Seedling"	4	Girth 8-10 cm.	See Notes	Evenly spaced at 6m centres in the proposed hedge of Unit 3 starting 3 metres from the proposed northern garden boundary.
HEDGE					
Hawthorn	<i>Crataegus monodonta</i>	90	0.45-0.5m tall whips	0.5m	Bare-root whips. Planted in two staggered rows 0.5m apart. Planting distance 0.5 m centres.
Holly	<i>Ilex aquifolium</i>	10	3 litre pots	0.5	Planted in the two rows of hawthorns; spread evenly - 5 per row.

- GENERAL NOTES
1. All plant beds to be protected by 1.2m high post and rail sheep-wire fence with single strand of barbed wire on top, as appropriate. Posts to be tanalised.
 2. All bare-root planting to take place in the winter months. Container grown plants to be planted ideally in October or March.
 3. All whips to be bare-root and planted in staked/fixe biodegradable tree-tubes of appropriate height.
 4. Weedkill vegetation using systemic weedkiller prior to planting. Plant each tree in 1.0m square bio-degradable mulch mat.
 5. Trees to be pit-planted backfilling with a mix of soil and well-rotted manure.

Fence Type 1 - Garden Fence Cross Section - 1:100 @ A3

Fence Type 2 - Hedge / Fence Cross Section - 1:100 @ A3
