Comments: I would like to comment, that this planning application should be approved. My child attends the nursery for 3 days a week and has a very enjoyable time.

The planning application concerns the existing roof for the kitchen area and a proposed cover to the arts area. Both structures will aid in the use of the site during heavier rain storms and winter weather. They are or planned to be wooden structures which fit well with the setting of being within a woodland and will age into their locations.

In response to a neighbours comment, the cover over the art area is more likely to aid in the retention of any noises the children make as the slant of the roof is towards the car park, also there is family picnic area between the nursery and the buildings, which means there has always been noise from children in this area.

The additional home schooling places should also be allowed, I feel that enjoyment of the natural world should be encouraged. It is likely that these places will not significantly increase traffic as they are likely to be taken up families where more than one child is homeschooled or where siblings already attend the nursery.
