Submission: Objection

Comments: it has come to our attention that since building work has commenced that some vehicles that were previously parked outside their own properties have not been able to do so because of the building works. therefore more vehicles are parking on the road leaving no room for cars to park in a village where parking is already difficult to come by if you don't have a driveway. some of the vehicles use the road up to the new build to turn around and are coming dangerously close to the front of our house. also on a few occasions there has been a long base truck with a jcb style digger going up and down almost on one occasion almost driving in to the front of our property. the turning out to the new property is a blind corner making it difficult to see at the best of times. the road is extremely busy with a school close by there are a lot of children about at certain times of the day. our concern is the property will bring more cars into an already overcrowded village as far as parking is concerned and in some instances may cause damage to our or our neighbours' properties if the turn is not judged properly
