Submission: Objection

Comments: I object to this proposal as currently presented. My only concern is for what can only be described as the very dangerous access and egress point virtually on the canal bridge to the planned dining area. Coming as it does at the narrowest possible point on the highway, on a blind bend at the bottom of a very steep hill, I am concerned for the public's safety. Not just any unwary customers but vehicle users too, who might have swerve into the path of oncoming traffic to avoid pedestrians. Visitors are already inclined to wander in the road in Froghall. This proposal will only make matters much worse. I suggest that the proposal be amended for there to be either an internal or external stairway from ground level to the proposed dining area upstairs and a lift for wheelchair users be insisted upon.
