Subject: Application SMD/2021/0612

Categories:

As the residence of Moorland Cottage Blakeley Lane, we would like to voice our support of the application number SMD/2021/0612.

Both the hardcored area and the farm style wooden fencing are in-keeping with the surrounding land. This infrastructure will facilitate good upkeep and care of the paddock, which prior to this was somewhat difficult.

To refer to this small area of hardcore as "a car park" is misleading. With space for a single vehical at most. If the occupiers did choose to park on the gravelled area, it would only aid in keeping Blakeley Lane clear of cars and allow for safer acces / turning by all other users.

We appreciate that this is a Greenfield area, and careful consideration is needed to maintain the surrounding environment for all residence. Nevertheless, with other larger developments going on in the vicinity, to deny the residence this small area of hardcore would seem unreasonable.

Finally, the traffic and recent accident on the A52 has no bearing on this application, implying otherwise is completely unjustified.

Kind regards,
Caprice and Harry
