Dear Jane Curley

Planning application: 2021/1006 – land to the east of Froghall Road

We object to this proposal.

The road onto the new estate will be dangerous near the top of a hill and around a bend in the main road.

Cars from the estate going into town will clog up Froghall Road where parked cars make it narrow near to the junction with Leek Road.

Lots more people will make it harder to get a doctor's appointment in town.

The playing field already attracts teenagers who shout obscene language and leave litter scattered across the grass. A new estate and footpaths from the houses by Donkey Lane, will make this a lot worse.

Our Park has a lot of retired people who enjoy a quiet life.

We like seeing the birds, hedgehogs, and other wildlife close to our garden, which will be spoiled by a big new estate.

We hope that you will recommend turning down this application.

Yours sincerely

Terry Prince
