Dear Sirs,

RE KPC Planning Application SMD/2021/0610
Proposed New Build - 228 new houses at Broad Hayes Farm

We strongly oppose this when there is a Brown site on the other side of town. There is no need to use GREEN agricultural land at this moment in time.

There is inadequate Cheadle town infrastructure, which can barely cope with present day needs - particularly that of school and medical facilities.

Most important of all is the concern about any increase of traffic on this stretch of road. It is busy at the best of times with a mixture of cars, goods vans, lorries and an increasing amount of freight traffic. To add more cars would endanger lives. We beg of you to consider this when making your decision on the plan.

Yours faithfully
