Submission: Objection

Comments: I object to this development on the following grounds; In my opinion the area does not have enough facilities to cope with this size development, the traffic is already bad in this area and this will just add massively to the problem and will definitely result in even more road traffic accidents. The area suffers from sewage discharge into the rivers because it cannot cope during heavy periods of rain this development will just make the problem worse. It seems that the Cheadle sports centre is to be demolished and a smaller one erected elsewhere thus making the areas facility's even smaller. The local doctor surgeries are at bursting point already and don't even bother to try and get a dentist! the local schools are already full so where will the children be educated? There are plenty of brownfield sites within the Stoke on Trent area that could and should be developed for new housing, green fields should be used for food production or leisure activities and remain green for local wildlife. Cheadle infrastructure cannot cope with any more of these big developments it is just a small market town and does not have space to be enlarged for more people it is already at its limit, it would just create more problems, more commuting, more pollution and ultimately more misery for current local inhabitants. Please give it a thumbs down and decline permission for the sake of people that already live here.
