Submission: Objection

Comments: I am objecting strongly to this application. I have been down that way this morning, I have taken photographs, it is disgusting and plans are being considered for a further development. I suggest somebody takes health and safety up with present builders on site before more plans are considered. The Wood as the only access on and off the site is dangerous. Today barriers were blown over but not put back up they had either been driven over or vehicles had mounted the pavement to access the site. The area cannot take more traffic there's the pollution being emitted destroying good land in the process. What is the point in all the meetings over climate control when councils are willing to allow all the green areas we depend on. Surely this second application cannot be considered. I would have liked to add the photographs to my objection but there is no facility.
