Submission: Neither

Comments: I wish to object to the proposal. It has no direct benefits to the local community and would place strain on the local infrastructure. Health, educational and employment opportunities are already limited in the area. The road and sewer systems struggle to cope with present demand.

Access roads through Cheadle are already gridlocked during the morning and afternoon peak periods. Car access through Kingsley is severely compromised by cars parked on the highway.

The impact on the wildlife corridors of the Churnet Valley is also a matter of great concern.

At this crucial time of climate emergency and COP26 we need to act in good conscience to protect the green belt for the health of present and future generations. Forward-looking planners and councils need to be limiting pollution not adding to it.

Thank you.
