Submission: Objection

Comments: I strongly object to this planning proposal for a caravan park on this site. I have objected on all previous applications and nothing has changed. The site is at the side of a very busy main road. Access to and from the site is dangerous with poor visibility in both directions and especially for cars towing large caravans not to mention the visible impact of caravans and noise factors of a rural location in an area of outstanding natural beauty. Also the Access for heavy goods vehicles delivering to the site along cheadle road from both cheadle and alton sides is asking for trouble with blocked roads and accidents because its not wide enough to accommodate lorries.

This proposal has been refused 3 times previously and i would like to draw attention to the refusal dated 6. 7.18.

Paragraph 1 clearly states the site is not considered by the council to be in a sustainable location due to the distance from shops and the site will lead to a significant increase in vehicle movement as per policies ss6c and ss7 and the site does not demonstrate the need / demand for a caravan camping park.

Paragraph 2 states the proposed development would be visually prominent and would be harmful to the rural character and appearance of the area and also the wider dissected sandstone and the councils landscape assessment defines as very sensitive to change and the proposal would not comply with policies DC1. DC3 SS6c SS7 E3 and E1.

This latest application is no different from previous applications the visual appearance of 14 caravans plus their towing vehicles plus 2 brick buildings plus the noise pollution should be more than enough for a refusal to save another area of our beautiful countryside being destroyed for financial gain.

I would also like to point out that no new notice of planning application has been displayed at the site the only one displayed is the previous one which has been left stapled to the telegraph pole underneath the jack russell puppies for sale sign
