Submission: Objection

Comments: This latest application is no different from previous applications the visual appearance of 14 caravans plus their towing vehicles plus 2 brick buildings plus the noise pollution should be more than enough for a refusal to save another area of our beautiful countryside being destroyed for financial gain.

Further I refer to Policy NE1 of Staffordshire Moorlands District Council Core Strategy Development Plan Document (March 2014) (CS) which aims to produce a net gain in biodiversity protecting and enhancing habitats and species of principal importance, and to conserve and enhance any SSSIs. In a previous refusal from SMDC it was also stated that a 15 metre buffer zone (should the planning be passed) be established from the existing roadside hedgerow to enable visibility this is NOT shown on this retrospective application and therefore drastically reduces the area for any development
