Submission: Objection

Comments: Comments: I wish to register my strong objections to the proposed development of a touring caravan site with

camping site pitches on the B5032 road.

National Planning Policy Framework Point 3, refers to supporting provision and expansion of tourist facilities in 'appropriate locations'. The proposed application does not meet that criterion due to its particular location on the B5032 road.

This was noted by the Staffordshire Council Highways 2018 and 2019 refusal of the application which referred to concerns of road visibility for vehicles entering and exiting the site, due to variations in alignment of the road east to west.

This limited visibility creates serious safety issues for both oncoming traffic and slow moving touring caravans on entry and exit of the site onto an A50 link road.

These circumstances and concerns noted in 2018 and 2019 remain as relevant now in 2021 to this proposed caravan site, are based on serious, noted concerns for road safety related to the location.

This is also next door to an existing touring and static caravan site
