Submission: Objection

Comments: I have just read the " Ecological" report..I am astonished at the incompetence and failure of whoever compiled thisI have lived here for 20 years and have a deep care for our wildlife conservation....and I can say that I see Bats every evening in the summer, over time I have gained the trust and I have attracted and had multiple litters of Badgers visiting and even coming into my conservatory to feed as well as foxes and cubs all can be supported by photographic / video evidence so this survey is a purely biased waste of time and the impact of this development will massively impact the wildlife....FACT
