Choosing Solidor®

We understand that knowing your home and family are protected is a major factor when choosing a new door.

You can rest assured that with our door construction, coupled with our unique, reinforced door frame and Secured by Design locking systems, your home will be as safe as can be when you choose Solidor.

A typical foam filled door construction

40mm Foam Filled Centre
performs thermally, but because this is a foam fill it is neither solid, nor secure.

Visible Edge Banding
as a result you will often see a different coloured line running the length of the door.

Gel Coated GRP Outer Skin
may offer protection but can be easily cut through. Also, because every door is a white blank that is surface painted they show scratches very easily.

3 Chamber Profile
which use valuable steel or aluminium reinforcements. Also, you should check if they are lead free.

Solidor's unique solid timber construction

44mm Solid Timber Core (48mm including skin)
that is thermally efficient and extremely secure.

Hidden Edge Banding
so the front of your door remains a solid, glorious slab of colour.

'Through' Colour ABS Skins
made from the same durable plastic as Lego®. Also, because the entire skin is made of a solid colour, any scratches are practically hidden.

Lead Free, 5 Chamber Profile
which uses 100% recycled reinforcing. Generally, the more chambers that a profile uses, the stronger and more thermally efficient they are.

Wood Grain Effect Skin
that gives all of the aesthetics of timber, but without the time consuming maintenance.

Lock Options

The Largest Deadbolt in the UK!

On lever handle doors we fit our Avantis Secured by Design lock. This has the industry's largest 25.4mm deadbolt for added security.

It also has built in compression and dampeners to give the smoothest operation on the market.

Automatic AV2 Mech Lock

The automatic AV2 mechanical lock operates as a slam secure lock as soon as the door is closed.

AV2-B allows home owners to unlock the door from a distance using a remote control device. (Only available with a lever/lever handle)

AV2-E is our electronic locking system which incorporates a 12v electric motor, causing the mechanism to withdraw the hooks and latch. The motor can be powered by a door entry system of the homeowners choice (door entry system to be sourced separately).

Automatic AV3 Mech Lock

The new autoLock AV3 automatic multi-point locking system has a magnetic trigger in the frame. Two self-locking sturdy hooks provide security and two sealing elements ensure correct closure.

A daytime release function is integrated as standard with easy one-handed operation or motorised release.

Ultion £2000 Guarantee

Every Solidor is fitted with Ultion as standard that means if an intruder breaks into your home as a result of snapping your Ultion cylinder lock, Ultion will pay £2000.

Lock Positioning

Standard Slam Shut Auto lock

The Slam Shut lock is an automatic multi-point locking system. It features two self-locking hooks to provide additional security and two sealing elements ensure correct closure.

Heritage Slam Shut Lock

The aesthetics of a traditional rim latch, but incorporates the latest high security slam shut technology. The lock automatically engages as the door closes.

Key Operated Multi-Point Lock

Customers who do not want handles can upgrade to our key operated multi-point lock.

Supreme Security Accreditations

THE Traditional Collection

The Traditional collection from Solidor, brings classic designs into the modern era. Each door design is suited to both traditional and modern properties alike, and will add a touch of elegance to every home.

Ludlow

Colour - Painswick
Glass - London Etch

The Ludlow is Solidor's most popular style of composite door.

It's perfectly suited to both rich colours such as red and traditional woodgrain effects such as rosewood. The two glazed panels can help shape the visual appearance of the overall door with options ranging from the traditional diamond to the more contemporary abstract. There's also the option of a solid door, which looks great in Irish Oak.

Beeston

The Beeston makes a fantastic composite stable door.

Given the size of the glazed area, it's possible to create something particularly individual when combined with one of the major colours, or you can even specify an integral blind. Like all the doors in the Solidor range, there's the option of chrome, brushed, gold, black chrome, black and white door furniture. So go on, be bold in your design!
