Submission: Objection

Comments: I am opposed to this planning application to change from Agricultural to Commercial use. The plan from Flanders is to use this facility to store dead animal corpses. Flanders are based in Leicester so it has no impact on any of their own property. There is absolutely no need to have another animal disposal site, we already have Brassington and Pointon. Any one that lives or drives past these facilities will fully understand the impact these places have on the surrounding area. I have no problem in farming the land, it's the fact that they will use this as fallen stock disposal. There has to be some support for the local people in this matter and a sensible decision made by the council for those of us who cannot have a direct impact on this application. Please for the sake of our visitors, landscape and our wonderful landscape, don't put a blot on our living area, think about how this will impact our lives. The number of wagons added to an already well used road that is already breaking up, we just don't need it.
