Submission: Objection

Comments: The development is too large for an area such as Cresswell with existing community infrastructure not appropriate to support a larger population. Suggested road improvements still appear to risk worsening the traffic issues at peak times and disrupting residents in and around Cresswell.

I firmly believe that the scale of the project exceeds the scope that can be reasonably constructed without harm to the ecological, community and traffic management aspects of the area.

Whilst I fully support new housing being constructed within the Staffordshire Moorlands, there are more appropriate development opportunities that could be exploited that enable the creation of entirely new communities which can be bolstered with the required facilities, technologies and other secondary and tertiary investments rather than tacking onto existing small, quiet communities that boast a rich heritage and strong neighbourly ambiance.

Thank you.
