Submission: Objection

Comments: This is a large intrusive steel building that is completely out of keeping with the current few buildings that are along the Hollington level. It will be clearly visible whether approaching from the East or West, and will detract from the current panoramic view. If it is connected to Broadgate Hall I cannot understand why it would need to be sited along the crest of the ridge when there are already outbuildings at Broadgate Hall which is out of sight in a valley. Also we do not need yet more mud on the road along the level- which undoubtable would be a consequence of siting it there.
