Subject: Planning application DET/2021/0045

Dear Sir/Madam

The above planning application concerns me for the following reasons, 1. If SMDC inform the applicant that no planning permission is needed then this building may rapidly proceed without any checks.

2. The site, on Main Road, is totally out of keeping with the environment and will be an obstruction to views across the level.

3. Broad gate Farm is extensive and a better unobtrusive site could be found, especially as there is an old barn that could be used.

4 This grain store seems to be very large for the purposes of this farm and if the applicant or his tenant intends to store grain for others this will result in increased traffic at a time when we are trying to reduce carbon footprints.

I shall be obliged if the council will register a complaint about this application and suggest that the planning officer turns it down.

Yours faithfully

Roger Peck
