Subject:

I would like to object to the above stated planning application enquiry.

The proposed facility it's close proximity to the highway and its necessity.

a. Will it be used for short or long term storage of grain or seed

Where is it presently stored.?

b. Will it have drying facilities or will damp grain have to be transferred too another location facilitating highway transportation.

c. Is it to be used for bulk storage of grain from other locations.

d. It requires a paved service area and good access road to the highway not outlined on the plans.

e. Future expansion of the facility or even change of use.

f. Impact on highway network
