Submission: Objection
Comments: Dear Sirs

There is no doubt that money talks so objecting to the proposal for installing a traffic light system on Uttoxeter Road Draycott seems pretty useless. But still I'm going to have my say as a resident of Draycott. We live in the row of houses that will be most effected by this mad cap idea. At the real busy times of the day the traffic will be backing up blocking the entrance to our property. I wonder if an emergency happens would an emergency vehicle be able to get access to our property. I ask the question why do we need any traffic system at all, what we do need is cameras along the stretch of the road to slow the traffic down, but as a village we have long tried for this. Surely this area has given up enough green belt land to housing development but there again its all down to the huge profits these companies make.
