Submission: Objection

Comments: In the interests of road safety and smooth traffic flow, I believe that both junctions in this plan should be roundabouts not traffic light junctions, as on the original plans, for which, I believe funding has already been made available.

The best interests of residents and traffic passing through the village would be roundabouts providing smooth flow of vehicles, not queues backing up on the roads affected. Well signposted roundabouts would have traffic calming and speed reducing effect on these already exceedingly busy roads where there have been a number of fatal accidents.
